EDUCATION

Stanford University

Sep. 2017 - Present

M.S. in Computer Science

GPA: 3.97/4.30

Advisors: Fei-Fei Li, Stefano Ermon

Stanford University

Sep. 2013 - Jun. 2017

B.S. in Computer Science with Distinction

GPA: 4.04/4.30

Advisors: Jure Leskovec

RESEARCH EXPERIENCE

Stanford Vision and Learning Lab

Stanford, USA

Advisors: Fei-Fei Li, Juan Carlos Nieves

Sep. 2017 - Present

- Computer vision research.
- Video prediction: decomposition and disentanglement of videos to predict future frames.
- Action recognition and detection: graph-distillation on multi-modal privileged information.
- Intelligent Senior Home: detection and analysis of seniors' daily activities.

Stefano Ermon Group

Stanford, USA

Advisors: Stefano Ermon

Jun. 2018 - Present

- Learn a fast neural solver for PDEs that has convergence guarantees.
- The correct solution is theoretically guaranteed to be a fixed point of the learned iterative solver.
- Our model generalizes to different geometries and boundary conditions.

Do Downvotes affect Online Discussions

Stanford, USA

Advisor: Jure Leskovec

Oct. 2016 - Sep. 2017

- A longitudinal study involving 17 separate online news discussion communities.
- Extensive study on the benefits and drawbacks of downvoting in online communities.
- Analysis on the effect of downvoting on community structure and individual user behavior.

Breadth-First Search Optimization

Stanford, USA

Advisors: Jure Leskovec, Rok Sosc

Mar. 2016 - Jun. 2016

- Optimization of the Breadth-First Search in the Stanford Network Analysis Project (SNAP).
- Implemented and analyzed the directional optimization (bottom-up approach) for BFS.
- Implemented and analyzed parallel algorithms for BFS.

Institute of Atomic and Molecular Sciences

Taipei, Taiwan

Advisor: Jr-Min Lin

Jun. 2014 - Sep. 2014

- Paper published in *Science*, DOI: 10.1126/science.1261549.
- Studied the reaction of the simplest Criegee Intermediate with water.
- Data analysis to infer the amount of different chemicals from ultraviolet absorption spectrum.

PUBLICATIONS

JOURNAL

- **Direct kinetic measurement of the reaction of the simplest Criegee intermediate with water vapor.**

Machine Learning for Healthcare (MLHC), 2018.

WORKSHOP

- **Vision-Based Gait Analysis for Senior Care.**
Evan Darke*, Anin Sayana*, Kelly Shen*, David Xue*, **Jun-Ting Hsieh**, Zelun Luo, Li-Jia Li, N. Lance Downing, Arnold Milstein and Li Fei-Fei.
ML4H: Machine Learning for Health at NIPS, 2018.

HONORS AND AWARDS

- **Frederick Emmons Terman Engineering Scholastic Award**, 2017.
Top 5% of the undergraduate engineering class at Stanford University.
- **Phi Beta Kappa Honor Society Member**, 2017.
Top 10% of the entire graduating class at Stanford University.
- **Stanford President's Award for Academic Excellence in the Freshman Year**, 2014.
Top 3% of the class in the freshman year.
- **Gold Medalist at International Physics Olympiad (IPhO)**, 2012.
Ranked 8th overall.
- **Gold Medalist at Asian Physics Olympiad (APhO)**, 2012.
Ranked 10th overall.
- **Taiwan and China High School Mechanics Competition in Beijing, China**, 2013.
Gold Medal in Theory. Gold Medal in Experiment.
